---

✓ 1. Which one of the following databases has PHP supported almost since  1/1
the beginning? *

○ a) Oracle Database

○ b) SQL

○ c) SQL+

◉ d) MySQL                                                                    ✓

---

✓ 2. The updated MySQL extension released with PHP 5 is typically referred 1/1
to as _____ *

○ a) MySQL

○ b) mysql

◉ c) mysqli                                                                   ✓

○ d) mysqly

✓   3. Which is the second largest integer range/ *       1/1

○ (a) BIGINT

○ (b) MEDUMINT

◉ (c) INT                            ✓

○ d) SMALLINT

---

✓   4. Which is the fourth-largest integer rang? *       1/1

○ a) BIGINT

○ (b) INT

○ (c) MEDUMINT

◉ (d) SMALLINT                     ✓

---

✓   5. Which is the double-precision floating point number? *       1/1

○ (a) semi-double

○ (b) float

○ (c) single

◉ (d) double                        ✓

✓   6. What is the largest non-binary string representation? *     1/1

○ (a) LONGBLOB

◉ (b) LONGTEXT                                          ✓

○ (c) MEDIUMBLOB

○ (d) MEDIUMTEXT

✓   7. Which one of the following lines need to be uncommented or added in   1/1
the php.ini file so as to enable mysqli extension? *

◉ a) extension=php_mysqli.dll                                ✓

○ b) extension=mysql.dll

○ c) extension=php_mysqli.dl

○ d) extension=mysqli.d

✓   8. Which one of the following statements is used to create a table? *     1/1

◉ a) CREATE TABLE table_name (column_name column_type);         ✓

○ b) CREATE table_name (column_type column_name);

○ c) CREATE table_name (column_name column_type);

○ d) CREATE TABLE table_name (column_type column_name);

✓  9. Which one of the following statements instantiates the mysqli class? *   1/1

○  a) mysqli = new mysqli()

●  b) $mysqli = new mysqli()                                                        ✓

○  c) $mysqli->new.mysqli()

○  d) mysqli->new.mysqli()

✓  10. Which one of the following statements can be used to select the       1/1
database? *

○  a) $mysqli=select_db('databasename');

○  b) mysqli=select_db('databasename');

○  c) mysqli->select_db('databasename');

●  d) $mysqli->select_db('databasename');                                           ✓

✓  11. Which one of the following methods can be used to diagnose and        1/1
display information about a MySQL connection error? *

○  a) connect_errno()

○  b) connect_error()

●  c) mysqli_connect_errno()                                                        ✓

○  d) mysqli_connect_error()

✓ 12. Which method returns the error code generated from the execution   1/1
of the last MySQL function? *

◉ a) errno()                                                          ✓

○ b) errnumber()

○ c) errorno()

○ d) errornumber()

✓ 13. In PHP in order to access the MySQL database you will use: *        1/1

○ A) mysqlconnect() function

○ B) mysql-connect() function

◉ C) mysql_connect() function                                         ✓

○ D) sql_connect() function

✓ 14. SQL is not case sensitive. SELECT is the same as select. *          1/1

◉ True                                                                ✓

○ False

✓  15. Which of the following function fetches a result as an associative          1/1
   array? *

   ○  A) fetch()

   ○  B) mysqli_fetch_object()

   ○  C) mysql_fetch_arrays()

   ●  D) mysqli_fetch_array()                                                      ✓

✓  16. Which of the following commands should be used to create a                  1/1
   database named "cwipedia"? *

   ●  CREATE DATABASE cwipedia                                                     ✓

   ○  CREATE −I cwipedia

   ○  DATABASE / cwipedia

   ○  mysql −s cwipedia

✓  17. MySQL is *                                                                  1/1

   ○  A)A GUI (Graphic User Interface)

   ●  B) A Relational Database Management System                                   ✓

   ○  C) An API (Application Programmer Interface)

   ○  D) A technique for writing reliable programs

✓   **18. What happens if you run a DELETE command that does not contain a WHERE clause?** *    1/1

◯ A) Single row will be deleted

◯ B) First row will be deleted

◯ C) Last row will be deleted

◉ D) All rows will be deleted from the table.          ✓

---

✓   **19. Which of the following method can be used to close a MySql database using PHP?** *    1/1

◯ A - mysql_connect()

◯ B - mysql_query()

◉ C - mysql_close()          ✓

◯ D - None of the above

---

✓   **20. Which query is suitable if I want to delete rollno cw302 from the database** *    1/1

◯ A. DELETE FROM Stud WHERE rollno=cw302

◯ B. DELETE FROM Stud WHERE rollno='cw302'

◯ C. DELETE FROM Stud WHERE rollno="cw302"

◉ D. Both B and C          ✓

◯ E. none of the above
